PROJECTS & COLLABORATION

1.Sarvadnya Infotech LLP (Next.js, Tailwind CSS, MongoDB) | [**link:** https://sarvadnyainfotech.com/]
Architected a full-stack functional website for a Tally Certified Partner featuring a fully customized admin panel for seamless dynamic content updates and day-to-day operations.
2. Self-IAM (Next.js, MongoDB, ContactKit, Bcrypt, Firebase) | [**link**: https://selfiam.site]
Engineered a multi-tenant API-based authentication service. Published as an NPM package for direct integration with pre-made forms, utilizing Bcrypt hashing for secure credential transmission.
3. DC Infoway (HTML, CSS, Tailwind, Vercel, Hostinger) | [**link:** https://dcinfoway.in]
Deployed a responsive, SEO-optimized business website for a local ISP, driving a 20% increase in inquiries. Established a GitHub-to-Vercel CI/CD pipeline for stable automated deployments.
